

# Hiking with the Dogs

By Sierra Brown, 8<sup>th</sup> grade

My favorite memory in Tenacity is when Sarata, Fatumata, and I went camping at Pinkham Knot and a dog chased us all. We were walking up the mountain and first we saw this big black poodle and we ran as fast as we can. Then we went to Crystal Lake. After we were going down the mountain and we saw this Golden Retriever and we were scared for our lives. Sarata, Fatumata, and I thought we were going to get chased by the dog but it just ended up chasing Sarata in circles around me. (I think the dog thought she was a bone.) Then the dog stopped chasing her. After, we saw a BIG Rottweiler and we ran behind some trees. The dog was trying to sniff where we were but he couldn't find us because we were blended into the trees. Then it went away. Then we enjoyed the rest of the time there. We had fun camping. We took lots of hikes.
